

“QUIZ’ENTIALS” TOOLS – *for enhancing quiz skills*

INSTANT INTERRUPTS GUIDE

Ever wonder how some teams “just seem to know” what response to give when they “quiz in” too soon??

Instant Interrupts can be used to assist your quizzers(s) in knowing how to accurately respond with quicker action, based on knowing key words per point value.

These specialized practice “drill” pages can assist your team with learning proper interruptions. Knowing what the choices are increases the odds of accurate responses.

The first drill is grouped through the complete interrupt word, while the other only to the ‘sound’ of that word.

Each point value is alphabetized and grouped by the exact similar wording of each question per point value.

Quotes are grouped and analyzed separately from non-quotes.

These practice sets also include a mathematical analysis of each group of interruptions by point values.

CORDLESS HAND PADDLE

Use to enhance quizzing skills

Use as a reward or incentive for study

Use in place of expensive quiz equipment at home

Use with Instant Interrupt Guide Drills to enhance quizzers interrupt skills and knowledge
